

National Postal Mail Handlers Union  
Local 308  
117 Neshaminy Rd. Croydon, PA 19021

## IMPACT ANNOUNCED

The USPS has notified the Union that they are implementing the withholding provisions of Article 12 of the National Agreement for all level 5 and below for all Mail Handler assignments.

Management proposes to excess 51 full-time mail handlers effective May 12<sup>th</sup>, 2018 eliminating 42 level 4 positions and 9 level 5 positions. All of this is due to the flawed Function 1 Scheduler. Management is claiming that the need to cut staffing is due to the mail volume reduction that the USPS is experiencing, of which, we are seeing none of, we are already short staffed and working overtime everyday. These actions are not unique to this facility, but are occurring nation-wide.

We are obviously challenging these actions and will provide the membership with updates as they occur. Local President Gibson has requested a regional meeting with the Postal Service to discuss the proposed impact. As soon as additional information is available it will be reported.

Fraternally,

Mike Rembelinsky
